

Projected Image Competition Additional Requirements for Windows XP Users

Additional information has to be stored in your .jpg file for the new software we will be using from Projected Image Competition #3.

Using **Windows Explorer** navigate to the folder where you have stored your images for Projected Image Competition #2.

Right Click on each image in turn and select **Properties** (the last Item on the list), then select the **Summary Tab**

Enter the title of your Image into the **Title AND Subject** fields.

And your name into the **Author** field.

Click **OK**.
